Why does your brand need digital or online presence?

- Social media is changing the way users are engaging with brands
- Social media is influencing life decisions
- Brand loyalty influence by social media

Ask yourself:
***“What should
be my online
presence?”***

Priority 1

Website

Priority 2

Social media

Priority 3

Digital marketing

Does your brand need a website? Let's review.

A website is a necessity and not a luxury.

It is your home on the internet.

Websites are also needed for Search Engine Marketing

Does your brand need to be on social media?

With users of all age groups now actively using social media, your target audience is spread on various platforms.

Social media is the most popular step in brand building

So, the answer is always 'YES'

Problems faced by enterprises which are low on marketing budget

- No in-house marketing and promotion team
- Focus on other aspects of the business
- Don't know where to begin
- No time to spare for social media promotion
- Digital marketing moves to the lower rung of priorities
- Competitors gobble up your market-share
